Medical
Equipment

At Teal we are committed to offering a range of premium quality medical equipment to help optimise efficiency and enhance the environment for healthcare professionals.

Designed for demanding high traffic healthcare environments our ranges contribute to improved workplace efficiency, while enhanced quality materials meet the needs for durability, hygiene and practicality in the delivery of care.

Flexible options are available on many products including Eolis® modular trolleys - fully customisable, with multiple options available to meet clinical needs. All are designed with healthcare professionals in mind with security, safety, ease of operation and infection control in mind.

Packing Workstations - Fixed Height

Fixed height tables developed especially for use in packing areas, for sorting, inspection, and packing of various sets of surgical instruments.

Standard Features
- Stainless steel tube frame (25 x 25 mm section)
- Quality 18/10 (AiSi 304) fully welded -
- Brushed surface finish
- Worktop in stainless steel sheet (1.5 mm thick) or high density antimicrobial resin, white color (13 mm thick - M1 fire classification)
- Fitted with lower shelf holders (2 fixing levels) as standard

- Ø 125 mm swivel wheels, 2 with brake (front)
- Max. load on the tray: 80 kg

Service Trolleys

Stainless steel service trolleys with push handles. Equipped with swivel wheels with bumper rollers.

Standard Features (Service Trolleys)
- Solid and hygienic construction entirely argon welded, without hardware - 18/10 stainless steel quality (AiSi 304)
- Stainless steel frame with 2 side push handles
- Reinforced and soundproofed stainless steel sheet trays - Equipped with a stainless steel rail guard on three sides on the lower tray(s)
- Compact resin trays, class M1 6 mm thick, white colour - Equipped with a stainless steel rail guard on three sides on the lower tray(s)
- Polyamide Ø 100 mm or Ø 125 mm swivel wheels with stainless steel ball bearing equipped with bumper rollers
- Max. load : 60 kg

Standard Features (Service Trolleys - High Load Capacity)
- Robust construction designed for heavy loads. Entirely argon welded - 18/10 stainless steel quality (AiSi 304)
- Stainless steel square tube frame 30 x 30 mm - Stainless steel built-in side push handles Ø 25 mm
- Stainless steel sheet trays with 15/10 thickness with turned down edges on the front and raised edges on the 3 sides
- Swivel wheels Ø 125 mm equipped with bumper rollers
- Max. load : 80 kg

Glide Height Adjustable Stools

Glide is a multi-purpose gas lift stool collection which combines freedom of movement with multiple configuration options, helping to create the optimum seating position for healthcare professionals in a variety of settings.

Standard Features
- Comprehensive model options provide comfort and support during prolonged periods of seated work
- Simple to operate height adjustment - via ring mechanism mounted on underside of seat
- Gravity assisted tilt – seat moves with users' body movement for added comfort
- Seat options: Upholstered seat or durable PU. Upholstered seat features moulded foam for added comfort and is available in a wide range of upholstery options and colours
- Durable 5-star base (black only)
- Choice of castors

Options (Castors)
- Standard castors with no brakes
- Brake loaded castors - castors brake under the additional weight of a user. Without a user castors are free moving
- Brake unloaded castors - castors are braked without a user. When a user sits on the stool brakes are released, castors are free moving

Options (Finishes)
- Upholstered seat models: Available in a wide range of upholstery options and colours
- PU seat black only
- Draughtsman stool - chrome ring only
