

## Astra Bariatric/REAS24

Astra is a contemporary, aesthetically designed electric rise and recline chair with advanced mechanisms to add comfort and functionality.

Tilt-in-space functionality reclines backrest and seat synchronously, helping to maintain posture.

### Standard Features

- Trendelenburg Bariatric
- Electric rise and recline, single motor
- Postural support with pressure management seat options
- Maximum load up to 220kg (35 st)
- Four heavy duty lockable castors
- One piece arm border minimises number of seams for infection control

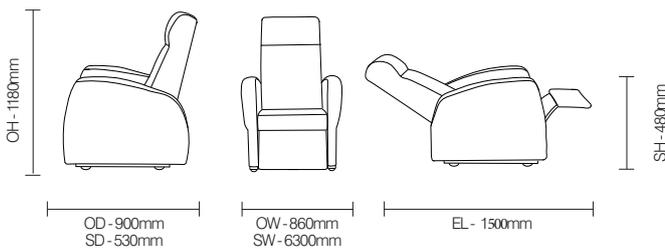

### Optional Features

- Handset key lock
- Reflexion® pressure relief foams
- Electric safety cut out
- Transformer integration
- Patient transfer arm available
- Antimacassar head cushion

### Performance Standards

- BS EN 1022:2005
- BS EN 16139:2013 Test Level 2
